Profile Summary

Data Analyst skilled in Python, SQL, and Power BI with hands-on experience in data cleaning, visualization, and dashboard development. Built analytical solutions using real-world datasets to extract insights, identify trends, and support data-driven decision-making.

Technical Skills

- Languages: Python, SQL
- Libraries: Pandas, NumPy, Matplotlib, Seaborn
- Tools: Power BI, Excel, GitHub, VS Code, Jupyter Notebook
- Concepts: Data Cleaning, Data Visualization, Business Insights, Machine Learning Fundamentals.

Projects

Precision Farming: Crop Recommendation System | 2026

- Developed a machine learning-based crop recommendation system using Random Forest to predict optimal crops based on soil type, rainfall, temperature, and seasonal conditions
- Trained and evaluated model on agricultural dataset (mention rows if you know: e.g., 5K+ records) achieving ~90% prediction accuracy
- Implemented complete ML pipeline including data preprocessing, feature scaling, model training, and evaluation
- Compared multiple algorithms (Decision Tree, SVM, Random Forest) and selected Random Forest for higher accuracy and reduced overfitting
- Built a web-based interface using Flask to allow users to input parameters and receive real-time crop recommendations

Education

Siddhartha Institute of Engineering and Technology, Telangana

B.Tech – CSE (AI & ML) | Expected Graduation: April 2027

CGPA: 8.55 / 10

TS BIE in MPC, Narendra cooperative Junior college CGPA: 90.1/10

SSC, Sri Suryodaya High School CGPA: 10/10

Key Achievements

3rd Place – GenAI Forge 2026 National Hackathon

(SmartBridge in collaboration with NASSCOM FutureSkills Prime)

- Led a team to design and deliver an **AI-powered** web application using **Generative AI** to address real-world industry problems.
- Coordinated task allocation, development workflow, and project delivery within tight deadlines.
- Presented the solution to judges, demonstrating practical impact and scalability.

Smart India Hackathon 2025 – College Selection

- Represented **Siddhartha Institute of Engineering & Technology** at **SIH 2025**.
- Designed and presented a low-bandwidth virtual classroom solution for rural colleges.
- Gained hands-on experience in collaborative problem-solving, pitching, and delivering scalable edtech solutions.

Certifications

- **Python Programming Course** — GeeksforGeeks
- **Master Data Analysis with Python** – Udemy
- **The Complete MySQL Bootcamp** – Udemy
